  Dough can be load by batch using Trolley
- **Digital Controlled Timer with Alarm**
  Useable for batch loading
- **Heavy Duty Self-Closing Doors with Magnetic Door Gaskets**
  -Provide maximum heat retention & sealing

Options & Accessories

- Trolley (ordered separately)

Specifications

The Fabristeel Pizza Dough Proofer features an exceptional proofing system that performs efficiently and requires virtually no maintenance.

Its unique design will aid in fermentation of fresh pizza dough to achieve a proper rising and proofing under controlled conditioning.
The Proofer's temperature controller is used to aid in keeping the internal temperature consistent, thus, giving same result each time. Current Setting: 33C + 2 (Adjustable to >35C).

The Proofer is uniquely designed for maximum energy efficiency.
Triple Tier stainless steel trolley that can fit up to 16" pizza pans.
Similar to the Fabristeel Retarder, the Proofer is designed to be effortless as users can transfer large batches of pizza dough using a trolley, to and from between the Proofer and the Retarder.
